Heart to Heart

Dear Moms,

I am always so blessed to hear your heart for homeschooling your children. It is truly a calling and blessing from the Lord. Following God's leading is always precious. Hearing His voice brings joy and peace like nothing else.

Here are some things to think about doing with your children:

1. Read devotions and have wonderful conversations about what you are reading with your children. Ask them questions about what they think.
2. Tell stories with moral values and read History together. Family history is good too!
3. Working together around the house is important to build the work ethic and team players. Daily chores require discipline and follow through. Don't expect everything to be done perfectly. It is a good idea to establish daily routines. A study was done in New York City that showed the students who did chores got the best jobs.
4. Teach your children by example how to serve others in your home, in your extended family, neighborhood and Church! Help out whenever you can and give your children opportunities to help too!
5. Always show honor and respect to their Dad. This is a great example of having a right heart attitude and will influence them to listen and obey their Dad. We Moms must always model humility and mercy and grace in our home.
6. Encourage your children to develop their own gifts. It could be music, athletics, gardening, organizing, planning, speaking, teaching, etc. My daughter is now a teacher and when she was 4 years old always wanted to play school and be the teacher. LOL So encourage those early interests!! God has a plan!
7. Have more humor in your daily affairs. Use humor to solve family dilemmas. A merry heart is good medicine. The Proverbs 31 woman laughs at the days to come. She isn't sad and mad. She has God's joy as her strength! Let God's joy fill you everyday!
8. YOU socialize your kids more. They need to hear Moms voice and heart. Play games and take walks and go on an adventure. Maybe go on a field trip to a museum or go to the beach and have a picnic with friends. Hiking is also a good time you will always remember.
9. Start school at 9:00. Be sure to include exercise in the morning and afternoon. Math and language arts everyday. Study science and History together in the afternoon 2 times a week.
10. Have fun! Keep a journal! Go on a date night with your husband!

Love you all!

Marilyn

Puritan Speak

There are a group of brave mothers who have infiltrated the National Association of Independent Schools organization and have exposed their plans to indoctrinate private school children in the LGBTQ+ ideology. This is not a Christian organization and only a small percentage of private schools are members.

Why, you may ask, would a parent spend a lot of money to have their child confused sexually? The answer is because many parents are unaware of what their children are being taught. The indoctrination is being purposefully hidden.

The “curriculum” is too graphic to write about here, but it begins in Pre-K and continues throughout high school. You can get more information by searching “Undercover Mothers.” Teachers in these independent schools are prepared for parents who find out and verbally object. Teachers are given a list of common objections under the title “Puritan Speak” Here is the list of objections under “Puritan Speak” that teachers are prepared to hear from concerned parents.

“Puritan Speak” includes phrases such as:

That’s *my* job.
They’re just not “ready.”
That’s too much too soon
They’re too young to know that.
Won’t they lose their innocence?
But, what if my child isn’t ready?
But what if they tell other children?
Don’t you have to wait until they ask?
But what if they keep on asking questions?
You’re just trying to put ideas in their heads!

Overseeing your own children’s education is the best way to protect your children from the current leftist propaganda. Home schooling is the best alternative, and second best is a Christ centered private school. Keep up the good work!

CALIFORNIA ACHIEVEMENT TEST AND IOWA TEST

We will not be administering the TerraNova 3 standardized achievement test this year. The California Achievement Test (CAT) is a good option for families interested in administering a standardized achievement test for their children this school year. You can choose online or paper/booklets, timed or untimed, complete tests or specific subjects. This achievement test can be administered by parents and does not require a bachelor's degree, or outside proctor. The cost is reasonable, about \$25 per test (the cost for scoring is extra and varies). This achievement test is offered for 2nd – 12th grade. The online testing offers immediate feedback. The paper-based CAT requires mailing materials before results can be determined and communicated. Paper-based testing is usually preferred for children in younger grades (2nd – 4th). For families interested in testing, the CAT tests can be ordered through the following websites: **shopchristian-liberty.com** and **academicexcellence.com**. With either source, please carefully read the information they provide for choosing the right test, scoring options and computer system requirements. Another highly recommended standardized test option is the Iowa Standardized Test (can be purchased through BJU Press – **bjupresshomeschool.com**). For parents of kinders and first graders, an option to consider is buying a grade-appropriate test prep book from Barnes and Noble and administering like a test. Or go to teacherspayteacher.com and buy the TerraNova practice tests (the TerraNova 3 is the test we have administered through Western Christian in the past). These are all good resource choices to administer standardized testing in your own homes.

Clay Construction Class 2nd-8th Grade

CHINO HILLS FRIDAY SCHOOL HIGH SCHOOL/FOR-CREDIT CLASSES 2022-2023 SCHOOL YEAR INFORMATION MEETING

FRIDAY, MARCH 11th. We will be holding our annual High School/For-Credit information meeting at Chino Valley Community Church (CVCC), 14601 Peyton Dr., Chino Hills, at **1:15 pm**. This is a great time to meet admin staff and teachers and have your questions answered. It is our desire to help equip and encourage families during the high school years. Junior High parents are welcome too. We look forward to seeing you there!

FIELD TRIP POLICY – PLEASE READ

The Lord has been so faithful in blessing Western Christian PSP and we just continue to grow and flourish! Of course, as we grow, we will need to make revisions from time to time on our guidelines and policies. These changes are for the benefit of the whole group.

In an effort to make our field trips and events a continuing success, we are asking that you adhere to the following procedures. First, when you want to sign-up for a field trip, please contact the field trip coordinator (usually Denise) to put your name on the list.

VERY IMPORTANT - Please do not send a payment into Marilyn for a field trip with out first signing-up. When you sign-up for a field trip, please make your payment at the time you sign-up (unless you are on a waiting list). If you make your reservations by telephone to the person coordinating the field trip, we ask that payment be sent immediately to Marilyn (unless another person is specified) and made payable to Center for Creative Learning or CCL. Before you sign-up for a field trip please carefully read the description in the newsletter and provide any needed information (for example: your first and last name, cell phone number, children's ages and/or grade level, etc.). This will help cut down on the extra time involved in having to call or e-mail people to obtain that sort of information. Once you have signed-up for a field trip and then find you need to cancel, please cross your name off the list and/or call the coordinator to let her know you are canceling. It is very time consuming to call everyone that has signed-up for a field trip to verify that they are still planning on attending. Again, it is your responsibility to call the person coordinating that field trip ASAP to let her know you need to cancel – even if it is the day of the event. This cancellation policy applies to ALL field trips. Also, there will be no refunds in the event you need to cancel (unless otherwise approved by Marilyn).

We have also implemented a wonderful mass e-mail communication system over the internet. We send out mass e-mails to the entire group all the time. These e-mails will often contain important information regarding field trip updates and modifications. It is important that you frequently check your e-mails to keep updated on upcoming field trips. Again, it is difficult to call everybody with every change and this e-mail system is a vital part of Western Christian PSP. Please carefully read all information that is sent to you.

You are all a blessing to Western Christian PSP and we greatly appreciate your understanding and cooperation!

CHINO HILLS FRIDAY SCHOOL **MOM'S** PRAYER AND FELLOWSHIP GROUP

All moms are welcome! This will be a time for moms in our homeschool group to meet and pray for our children and families. We will meet at the tables outside of the front building from 9:45 am to 10:30 am. Hope to see you there!

CHINO HILLS STATE PARK – SEEING NATURE THROUGH JOURNALING

MONDAY, MARCH 7th OR FRIDAY, MARCH 11th. For Kinder – 8th grade. (Same program offered on two different dates). The student-centered journaling program introduces students to the process of nature journaling. This field trip opportunity gives students the opportunity to make their own connections and experience the park at the level they want to. Students begin by making nature journals and learning how to set up a nature journal. Then they are given time to journal on their own before getting in groups and analyzing their journals. Last, the students will end the trip with a fun game enhancing their understanding of making sensory observations. The tour will last approximately two hours. You are welcome to bring a sack lunch and eat after the tour. Since the program is outdoors, dress in layers to accommodate changes in weather, wear comfortable walking shoes, bring a hat, and a water bottle. **Space is limited – In order to allow more children to participate in the field trip, please just sign-up one adult per family.** COVID guidelines: Masks are optional.

TIME: Please arrive by 8:40 am. The tour will begin at 9:00 am and end around 11:00 am.

COST: \$1.00 per child **and** \$1.00 per adult. Please pay Marilyn through her Zelle (626-222-3562) or Venmo (Marilyn-Stephens-8). Or you can pay by check or cash at the Rancho Tuesday School or Chino Hills Friday School. Please include on your payment what you are paying for “Chino Hills State Park.”

RSVP: Please RSVP to Denise Kross at kd_kross@yahoo.com by Monday, February 21st. Please include the grades your child/children when you sign-up. (Please note, our field trips fill-up quickly. So don't wait until the deadline to sign-up!).

ADDRESS: Chino Hills State Park at the Rolling M Ranch campgrounds in Chino Hills. More details will be sent to the families attending the field trip.

CUCAMONGA ALLEY WATER DISTRICT (CVWD)– ENVIRONMENTAL LEARNING CENTER

MONDAY, MARCH 28th OR WEDNESDAY, MARCH 30th. (Please choose one of the dates). For grades Kindergarten – 8th grade. This will be a fun and educational field trip learning about the environment! The Environmental Learning Center was developed to provide kids with a hands-on water and environmental education field trip opportunity. During our visit to the CVWD learning center, you will participate in three activities: The Incredible Journey of Water, Owl Pellet Investigation and Enviroscape. The Incredible Journey of Water – Kids will learn about the water cycle, think critically and have fun. Plus, the kids will put together a Water Cycle Bracelet during the presentation. Owl Pellet Investigation – The kids will dissect owl pellets to find out what owls have consumed and reconstruct the bone structure of the creatures they find. This activity teaches kids about the food chain, and how all living things need water to survive. Enviroscape – A three-dimensional landscape model shows a typical community with urban, agricultural, and industrial water uses. The kids will learn about water pollution using Kool-Aid, pudding, cocoa powder, and Spray bottles to simulate rain. **SPACE IS LIMITED – In order to allow as many children as possible to attend, please sign-up just one adult per family (thank you for understanding). Also, if younger siblings are in attendance, they must be supervised at all times. COVID PROTOCOL – Masks are optional.**

TIME: Please arrive by 9:45 am. The tour will begin at 10:00 am and will end around 11:30 am/12:00 pm.

COST: \$1.00 per child and \$1.00 per adult. Please send payment to Marilyn by check, Venmo (Marilyn-Stephens-8) or Zelle (626-222-3562), Please indicate in the memo area “CVWD field trip.”

RSVP: Please RSVP to Denise Kross at kd_kross@yahoo.com by Friday, March 18th. **When you sign-up**, please provide the number of adults (one per family), the number of kids and the grade/s they are in.

Address: 5815 Etiwanda Ave., Rancho Cucamonga (Please look up this address. If you look up the CVWD address, you will get the main office. We are meeting about 15 minutes away from the main office. When driving up Etiwanda Ave., the Environmental Learning Center will have a black gate on the right-hand side. It is a secure location, so when each car arrives the staff will buzz you in.

CHILDREN'S HUNGER FUND: POVERTY ENCOUNTER

WEDNESDAY, APRIL 6th . Pre-K – 12th grade. This is an amazing field trip and a unique opportunity for your family to experience! Our group went a few years ago and loved it! Poverty Encounter is an interactive, educational, and immersive experience, which will open your eyes to the suffering faced by millions of children around the world every day. This field trip will ignite your hearts to make a difference and take action to respond biblically to help those who need it most. Your tour will start by “boarding a plane” that will transport you to a far-away place. You will walk through four different environments of poverty: a garbage dump in Central America, a city struck by a natural disaster, a brickyard in Nepal, and an underground sewer in Eastern Europe. In the midst of it all, you’ll discover the gospel in action, and ways you can provide help and the hope of Christ! Every tour includes a food-packing experience, allowing you to make a difference in the lives of suffering children.

COVID protocol: At the time this was written, the only requirement per, LA County, is wearing a mask indoors. We will continue to check with Poverty Encounter on any changes to this requirement. If the mask requirement is lifted, then wearing a mask will be optional.

TIME: Please arrive by 9:40 am. Tour will begin at 10:00 am and end at 12:00 pm.

COST: **\$8.00** per child (ages 6 and up) and **\$8.00** per adult. **\$1.00** per child (ages 2-5). Please send your payment to Marilyn by check or pay through her Venmo (Marilyn-Stephens-8) or Zelle (626-222-3562). And be sure to note that it is for “Poverty Encounter.”

COORDINATOR: Please RSVP to Denise Kross at kd_kross@yahoo.com by **Monday, March 21st**. (please note that our field trips fill up quickly, so don't wait until the deadline to sign-up!) When you sign-up, please provide the following:

1) First and last name of each person and the age of each child and 2) the tour start time you would like. **PLEASE NOTE that each person counts as a ticketed spot. This includes children under age 5. Any child that is walking or in a stroller counts as a ticket. Children ages 2 and under that are held the entire tour do not count as a ticketed spot.**

ADDRESS: 13931 Balboa Blvd., Sylmar 91342. (To give you an idea of distance, from Upland it is 50 miles).

Rancho For-Credit Class Course Offerings:

Class: English 7

Teacher: Amber Collins

Contact: amber_dak@yahoo.com , 909-576-2926

This class will be taught by Amber Collins. She has a BA in liberal studies from Azusa Pacific University. This year, in English 7, we will be using **Explorations in Literature**, published by BJU. This curriculum offers engaging content, an emphasis on Christian philosophy and biblical integration, as well as challenging questions that develop critical-thinking skills. This curriculum is rigorous but can be modified for students who need accommodations based on learning needs. The cost of the textbook is \$60, although a digital copy is available for \$30. Also necessary is the accompanying test booklet. It can be found on BJU's website for \$17.57. As a part of the class, we will also be studying grammar, using Fix It! Grammar: Robin Hood Student Book 2. It can be found at <https://iew.com/shop/products/fix-it-grammar-robin-hood-student-book-2>.

Class: History 7

Teacher: Amber Collins

Contact: amber_dak@yahoo.com , 909-576-2926

This class will also be taught by Amber Collins. This year, in History 7, we will be studying literature-based units exploring the years between 400 and 1522. In this course students will learn about King Richard, King Arthur, Saladin, Queen Eleanor, Joan of Arc, Shahrazad, and others. They will learn about Martin Luther who revealed a new way to approach God and about John Wycliffe who organized the Bible. Students will read about the life of Columbus, whose discovery of North America changed the world forever.

Class: English 8**Teacher:** Marie Morales**Contact:** 909-240-0001, marie@wmtutoringservices.com

Marie is a homeschool mom of two, married to a Worship Leader/Music teacher husband, and a friend to all who want to learn. My favorite pastime is reading a classic romance novel. I love Literature and reading all different works in all genres. I currently teach History at Committed Christian School in La Habra, CA. I have an Associate's Degree in Business Administration with plans to continue my education and complete my Bachelor's Degree. I am extremely excited to meet each student and impart my passion for learning about the past with hopes that they will leave their stamp on our future!

In this course students read literary works from a variety of genres and cultures. They are taught not only to appreciate literature for its creative and aesthetic qualities but also to study the themes and moral tone of each work, carefully evaluating those elements in light of biblical truth. Students learn the foundational concepts necessary for the study and appreciation of literature while applying scriptural principals to the analysis of an author's ideas. Students sharpen their critical thinking skills as they observe the strengths of good writing and evaluate various.

Class: Geography & Culture (6th/7th/8th Grade)

Teacher: Letitia Ugwueke

Contact: lvocalist4Him@gmail.com, Phone/Text: 909-732-7476

Welcome to this new class entitled Geography & Culture. Hello, my name is Letitia Ugwueke and this will be my first year teaching at Western Christian. I have been homeschooling for 2 years and this will be my kid's 3rd year in the program. I have a 9th grader and a 5th grader. I studied Music at Azusa Pacific University and earned my BA and MA in Vocal Performance. Having toured and traveled the world with bands and choirs, I know that this will be an exciting topic that I believe will be intriguing and informational in exposing the students to different cultures around the world and how cultures affect the spaces and places that they have originated. This class will also cover the element of geography and how different cultures of people are constantly moving and traveling across various parts of the world. Let's travel!!!!

Textbook: Apologia's General Science curriculum. 3rd Edition.

<https://www.apologia.com/product/apologia-basic-set-general-science-3rd-edition/>

Pre- Algebra (Grades 7 - 8): This is a one year course. This course will lay the foundation for the types of higher math that students will learn in high school and beyond. Course covers a wide range of math concepts starting from integers to expressions, equations and inequalities, number theory, rational numbers, percents, geometry, statistics and probability and graphing. Students taking this course will be well prepared for taking Algebra 1. According to Bob Jones, Pre-Algebra is an 8th grade curriculum. Students who are in 7th grade can opt to take Pre-algebra so they can take Algebra I in 8th grade, but it is recommended only if they have mastered their basic math fundamental concepts. If you have any questions about this you can call or text me. Students will be assigned daily assignments based on concepts taught in class. Tests will be assigned to be administered by parents.

Teacher: Sheela Grace Dinesh. Call or email to enroll or if you have questions. **323-570-6513** or sheelagrace777@gmail.com

Sheela Grace Dinesh is passionate about The Lord, His Word, and about teaching students the importance of living a Christ-centered life. She loves teaching Math and leading students to realize how math is incorporated in our daily lives. She will also encourage them to see with a Biblical worldview in mind how mathematics relates to many aspects of everyday life. She has a Bachelor's Degree in Engineering and has also taught Math, Science, and Art to K -12th grade students. She has been homeschooling her daughter for 2 years.

Math Fundamentals (7th Grade): This is a one-year course. Students will examine the basic principles of mathematics which will lay the foundation for more advanced math that they will encounter in their higher grades. The course covers a wide range of math concepts starting with whole numbers to decimals, number theory, fractions, rational numbers, integers, measurement, statistics, and probability and ending with an introduction to geometry and algebra. Students taking this course will be well prepared for taking Pre-Algebra. According to Bob Jones, Math Fundamentals is a 7th-grade curriculum, however, they can opt to take Pre-algebra so they can take Algebra I in 8th grade, but it is recommended only if they have mastered their basic math fundamental concepts. If you have any questions about this you can call or text me. Students will be assigned daily assignments based on concepts taught in class. Tests will be assigned to be administered by parents.

How does a for-credit class work? Students receive a classroom presentation each week by a teacher for every subject that they are taking. The parent's role at home is to interact with their student regarding assignments and assure completion and submission of weekly work. Parents must grade daily math although the teacher will grade tests and offer progress reports. Teachers will provide grades for subjects other than math. A final grade for all subjects is the decision of parents. http://freedomtoteach.org/Western_Christian_Schools_PSP/High_School_Course_of_Study.html

BJU Elements of Literature broadens students' understanding of literature by focusing on advanced literary concepts. Students will learn the method and the importance of literary analysis by studying pieces from several genres and interpreting them in light of biblical truth. The textbook promotes critical thinking skills as key to understanding and appreciating literature. Also, a visual analysis section found at the beginning of each unit relates the unit's topic with the visual arts. Students will read 6 world literature novels: Shadow of the Almighty: the Life and Testament of Jim Elliot, Kon-Tiki, I Am Malala, Don Quixote, Night and Cry the Beloved Country. Novel studies will be part of the class. Students will review grammar and mechanics through assignments from a BJU text that the teacher will provide. Two different writing tracks are available for the writing component of this class.

1. Your student will be given standard short writing assignments, integrated throughout the year

OR

2. They will have the chance to opt into working on writing a novel over the course of the year for their own enjoyment or to self-publish when complete.

Please contact the teacher to reserve your spot and indicate which writing track your student would prefer.

Yolanda Hedtke: As a California credentialed math teacher of 15 years, I have taught all levels of math from junior high to high school in traditional and online settings. I homeschooled for six years as part of Western Christian PSP and loved every minute of it. For the last two years, I taught 6th grade math through PreCalculus for a non-classroom based charter school. I decided to step away from my full time employment in order to spend more time with my family. I look forward to helping students love and learn math this upcoming year.

Algebra 1 (2 semester course) - 10 credits

Students will work with linear, quadratic and exponential functions. In addition, students will analyze, solve, and use quadratic functions. Students will also look at rates of change and growth patterns. Students will also extend the laws of exponents to square and cube roots. Graphing and modeling functions will be key concepts covered.

Materials: Textbook TBD, notebook, calculator, laptop/chromebook/tablet is ideal for access at home for any of my video instruction, resources, and homework assignments/assessments.

VAPA Music Appreciation Class

**This class will be held online and will meet once per month in person in Rancho at CBC.
Class time: Wednesdays 12-1pm Online**

Welcome to an exciting new year! I am Letitia Ugwueke and this will be my second year teaching at Western Christian. I have been homeschooling for 3 years and this will be my kid's 3rd year in the program. I have a 10th grader and a 6h grader. I studied Music at Azusa Pacific University and earned my BA and MA in Vocal Performance. Presently I lead worship at my church, teach voice out of my home and I am a Voice teacher vendor for Granite Mountain. I look forward to sharing my experience and exposing the students to all kinds of music, which will enhance their learning, their listening and above all their creativity.

God is in music and God created music. And my prayer is that the students' love of music will grow deeper and make them think about music for themselves. In this class students will be challenged in listening and identifying various aspects relating to media/visual arts, theatre, music and dance. Students will gain an appreciation of music from classical to movie music. They will apply listening, visual arts, dance and theatre to each style of music that is presented each month. As a result of Covid-19, classes will be virtual until further notice.

Western Christian PSP Pre-School 3 & 4 year olds welcome!

Teacher for 3s: Valerie DeRenzis

Hello, I am Valerie DeRenzis. My husband Brian and I have been called to the ministry of homeschool for 5 years raising and teaching our three children, Ashley, Adam and Alyssa in the ways of our Lord and Savior Jesus Christ. It is a blessing to be intentional teaching His Word and daily sowing seeds of God's truth, great love and grace. I studied Accounting at University of La Verne and have been serving in ministry for several years including Children's Ministry, Women's Bible studies and Marriage Ministry at our home church Calvary Chapel Chino Hills. Looking forward to a year of nurturing a love for the Lord by learning about His Word and His creation.

Friday School Class Descriptions

Kindergarten: Christine Arnold 16 weeks

This year our kinder class will be learning all about the world around them...from the seasonal changes God has made in our world, to plant and animal life and even a little bit about our solar system... this year is going to truly be out of this world! We will be learning through our daily rug time (i.e. Calendar, prayer, etc), songs, Bible, art, story time, and so much more!!! I am both blessed to have this opportunity to teach your kids and honored that you would trust me and my ability to teach them this year.

I have my B.A. in Liberal Studies and had previously worked as an ABA (Applied Behavioral Analysis) therapist for almost 3 years. I took a sabbatical from work when my husband and I started our family and I have homeschooled our 2 boys for the past 4 years. I have also been a substitute teacher at Cornerstone Christian and recently became a sub at Western Christian PSP for Tuesday and Friday schools.

I am looking forward to meeting all of your wonderful kiddos!

1st Grade: Christy Miller- 16 weeks / Credentialed Teacher

This year we will be learning about a different artist each week by reading about them and completing a project in a similar style that they would have done. (Similar to the Meet the Masters program) We will be using different methods and styles with- painting, pastels, watercolor, crayons, glue, markers and anything else fun I can find. We will also be having sharing time, PE activities and snack time on the playground. Looking forward to meeting your kids!

2nd Grade: Keri Chavira 16 weeks

Keri has worked as a nurse in the home health field for over 10 years before choosing to be a stay-at-home mom to her four kids. She enjoys time with family and friends, homeschooling, serving at church, and AHG!

This year the second graders will enjoy wild and whacky science experiments, learning all about God's beautiful and wonderful creation, fun art projects and seasonal crafts. I look forward to getting to know your children and a fun hands on learning experience!

Items student will need for this class: Backpack, drink (with a closure cap), peanut free snack, folder, pencils, scissors, glue sticks, crayons or colored pencils. ***Mark all supplies with child's name***

3rd Grade: Kristyn Panopio, Credentialed Teacher, KPanopio@gmail.com

Our theme for the year is "World Changers!" We'll be learning about the lives of men and women of faith in history, the times they lived in, and the character qualities they lived out. We'll look at one person a week (Jackie Robinson, Fanny Crosby, Fred Rogers, Harriet Tubman, and many others!) and learn about their lives through picture books, crafts, interactive assignments, games, music, practical skills, physical activities, and thought-provoking discussions. We'll also celebrate the seasons and holidays together. Kristyn Panopio has a B.A. in History and a Social Science, Secondary Education Teaching Credential from California State University, Fullerton. She taught junior high history in the Hacienda La Puente USD before choosing to be a stay-at-home mom!

4th Grade: Kim Hale halekmh@gmail.com

Class-description—We will be studying early American history exploring with Christopher Columbus the finding of our New Country! Reenactment of our first thanksgiving along with the travels of Lewis & Clark and Sacajawea! Impact “Service, Community, and Fun” Middle School Class for 6-8th Grade

Impact is an exciting class just for Middle School students. The goal of Impact is to give back and serve the students at Western Christian PSP. The students in Impact work to raise school spirit, community, and student involvement in service projects. In addition, we will develop a deeper community by planning events for 6th—8th graders. Impact students who enroll do so because they recognize that there is more to being successful in school than simply doing homework. Having a positive atmosphere where students feel wanted and accepted is critical to their success. To that end, the members of Impact will focus on providing engaging activities that ensure a well-rounded middle school experience monthly. Impact will help to develop organizational, communication and leadership skills. We will have a strong focus on Godly character, service and community.

CHAPLAIN THOUGHT

"But not so with you. Rather, let the greater among you become as the youngest, and the leader as the one who serves."
- Luke 22:26

Even if we claim to be a leader, we have to serve others with humility just as Jesus did, humbling Himself to the point of death on the cross. It's amazing to set aside specific times to go and serve others, but we can always serve the people around us in our every day lives by looking at how others may need help or encouragement. If we want to be first, we must be last. So, let us serve the people around us with humility now and always.

"The strength of the group is the strength of the leaders." - Vince Lombardi

"Do not let what you cannot do interfere with what you can do." - John Wooden

These are powerful quotes about leaders and leadership by two very successful coaches.

Describe what being a leader is in your own words.

What leader(s) do you look up to? Why?

List three positive characteristics and three weaknesses about yourself.

Why do you want to be in ASB?

What do you think you will be able to contribute to ASB?

Being a part of ASB requires attendance and/or participation at an event each month, Summit (our one day planning meeting) in the summer, reading and responding to a selected book.

Knowing your family's schedule and your personal schedule, will you be able to participate in all of this?

What ASB events have you attended in the past year?

“Do not let anyone look down on you because you are young, but set an example for the believers in speech, in conduct, in love, in faith and in purity.” 1 Timothy 4:12

How do you feel this verse applies to being a member of ASB?

How do you handle conflict with others?

Describe your relationship with God.

List one teacher reference from our homeschool group:

List one adult reference who is not family (include contact info):

*Interviews will be held April 19th—23rd from 4:30—6 p.m.
Please indicate which two days and time are best for you.

Tips for Preparing Your Student for College

Having a high school diploma is important but it doesn't guarantee that you will be able to get into college. It can be a difficult process these days. Here are 12 tips/suggestions for students considering college entrance:

1. Plan ahead. When you know what college you want to go to, go to their website to make sure that you are taking the courses that they recommend.
2. Align your course titles with those of Western Christian so that the colleges will recognize what you have been doing.
3. Check the Western Christian website to see what courses CSU and UC want you to take.
4. Check this website for more information about how to get into college as a homeschooler: Look at www.californiacolleges.edu/#/
5. Be involved in the community so that you can talk about your experiences and the ways that you have made a difference to people. Colleges want smart and academic students, but they also want people who can change the world for the better.
6. Find out what you do well, do it, and learn how to write about it. Colleges are looking for you to explain to them why you are "head and shoulders better" than the others who are also applying to college.
7. Take the tests. Take the SAT. Take the ACT. Take the SAT II subject tests. Find objective ways to prove that you are who you say you are. Test taking is a learned skill. Practice, practice, practice.
8. Take AP courses and their corresponding tests.
9. Take some community college courses or enroll in the part-time program at Western Christian. This is another way to show that you are as good a student as your mother thinks you are.
10. Make sure that you have all the courses that Western Christian requires for a diploma.
11. Most importantly, pray for God to go before you in this whole process.
12. Remember that it is hard to get into many college programs today, so you should have several options. Don't put all your hopes and dreams into one program unless you have figured out several ways to get there.

Jr. High and High School Credit Courses CLASS DESCRIPTIONS 2021—2022

Enrollment Fee: \$35 per semester per class (payable to teacher)

THIS IS NOT INCLUDED IN TUITION FEES!

Course Fee: varies (payable to individual teacher)

How to Enroll: Please call each individual teacher. The enrollment and medical release forms are to be turned in the first day of class, and will be e-mailed to those who are preregistered for the classes.

Course Fee: \$165, plus \$35 enrollment fee, per semester

Supply Fee: \$5.00/sem

Books required: “The American Sign Language Phrase Book” by Lou Fant

(Available at Amazon or Barnes & Noble)

Recommended: Any ASL dictionary for reference (Barnes & Nobles has many)

Resources: ASLpro.com, Lifeprint.com (ASL University), Other various websites

ASL sign language is the only accredited sign for the United States. In this beginning class we will learn how to communicate in sign as we learn vocabulary, group practice, presentations, games, and tests. We will also explore some of the culture of the deaf community. There will be a new lesson every week. The student is expected to study the lesson at home, culminating in a quiz at the beginning of each class time. We will have an exam and a class presentation at the end of each quarter to reinforce what the students have learned.

American Sign Language – ASL 2 High School Credits: 10 credits per year

Teacher: Kathy Bartling

Contact: 951) 809-5284 or, Email: Kateagirl4u@gmail.com

Course Fee: \$165, plus \$35 enrollment fee, per semester

Book required: “American Sign Language – The Easy Way” by David Stewart/Barron’s Educational Series, Inc.

(Barnes & Noble or Amazon)

Supply fee: \$5.00

Recommended: General ASL Dictionary

Resources: ASLpro.com, Lifeprint.com (ASL University)

This course is for those students who have already fulfilled one year of ASL. The class will fulfill the requirements for a 2nd year language course. It will encourage students to communicate in sign only and develop an extensive vocabulary of signs. Because this language is uniquely different from English, students will need to practice and study concepts at home to reinforce the lesson. Dialogues and other conversational techniques will be used. Testing and projects will also be assigned. This year’s course will fulfill language credits for High School.

American Sign Language—ASL 3 High School Credits: 10 credits per year

This course is a continuation from ASL 2. Having the necessary foundations for the structure of the language in ASL 2, this course will build on those skills by practicing dialogues, structure, sentence types, Classifiers, and review of vocabulary. This class will be conversation based in order to truly excel in the language.

High School Photography - Grades 9th - 12th

This fun and creative one-year course incorporates both digital and art photography. The class is interactive, with many class sessions working together as a class to explore the techniques being taught. This is a one year course, and each class is 1 hour and 15 minutes in length.

Basic photography skills are taught through bi-weekly assignments, lectures, video and projects. Various photographic styles are explored including, Documentary, Portraiture, Commercial, Landscape and Nature. Photographically driven art pieces are also a part of the class. Students will learn the art of photo Transfers, Cyanotypes, Inkodye T-Shirt printing, photo collage, and make a photo lamp.

I have been teaching this course for over 16 years and it is always a favorite among the students, and is sure to improve their photographic skills.

Speech: Learning to Speak Effectively and with Confidence (high school 9-12)

ONE SEMESTER CLASS — OFFERED BOTH SEMESTERS (see schedule for time)

This course is designed to help students learn how to communicate with confidence in front of others. Skills include topic selection, research, organization, and presentation tips. We will also be discussing how important our words are as followers of Christ, and we will be taking a look at what God's Word says on this topic. Speeches will be informative, persuasive, devotional, impromptu, and more. Students will also learn how to share their testimony. This will be a safe, friendly atmosphere, which will allow students to learn and grow through a class, which is often an uncomfortable one for most. Students will be held accountable to treat each other with respect and courtesy.

CLASS SIZE MAX: 12 students

Course Fee: \$165, plus \$35 enrollment fee, per semester

US American History Grades 11-12

American History is so fascinating, and throughout this class you will develop a deeper understanding and appreciation for what makes this nation great, and what sets it apart from the rest of the world. From Native American society through modern America, students will address both the workings of God and the shortcomings of humanity in the formation and progression of America. Students will gain an appreciation of the providence of God in the development of a country based on Biblical principles and events that have shaped America's history. Students discuss geography, politics, economics, and current events to formulate reasoned Christian viewpoints on issues of contemporary society. The class will be enhanced through historically based DVD's, mini debates and speeches, dramatic reading as well as games to help you prepare for quizzes. The hope is that history will become so much more than just words in a textbook. During the class we will occasionally use art projects to enrich the study of America's past, and a few basic art mediums will be needed.

American Literature

In this course, we will study the great writers and poets (Bradstreet, Edwards, Hawthorne, Twain, Dickinson, Thoreau, et al.) from each era in American Literature (1630-1960). Students will enhance their critical thinking skills and develop their understanding of American Literature within a biblical worldview (and references to it in our society today). Our weekly class sessions will provide a time of interaction between the students and teacher where they will engage in meaningful discussions, conduct presentations, and participate in group projects and collaborative assignments. This class will include the study of poetry and short stories, novel reviews, literary devices, composition, timed writings, and thesis statements.

British Literature

The study of the history, culture and major writers of each era of English Literature is the focus of this class. In this course, all readings will be considered in context of historical, cultural, and philosophical influences of the time periods studied. Students will think, speak, and write critically about what they have read and these concepts and ideas will be discussed in class within a biblical worldview. They will generate and share their own thoughts and opinions about selected literary works, their ideas and understanding of key concepts through class participation, papers, projects, and presentations. Students will be encouraged to have a cultural understanding of the use of literary devices and references as they develop a lifelong love of literature.

Physical Science

This is a full year high school credit class. 8th graders can take the class for high school science credit as well. Topics covered will include: matter in its 3 states, kinetic and potential energy, foundations of chemistry, Newton's Laws of Motion, forces and simple machines, sound and light waves, magnetism, and electricity. This is a foundational science course that prepares your student for upper level science. It includes laboratory experiments that reinforce topics. We will be doing a science project and presentation in the second semester. (minimum 7 students needed)

Textbook/Materials: Science: Matter and Energy Textbook, Lab Book, and Test book from Abeka Publishers

Location: Chino Valley Community Church

Teacher: Charley Cheatwood, charley@bethanybaptistlife.org

Course Fee: \$165, plus \$35 enrollment fee, per semester

For this class to be held there must be a minimum of seven students enrolled

High School Biology

Biology is most exciting (and most truthful) when it is taught and learned in the context of our awesome Creator. His creation certainly reflects the majesty, wisdom, and power of God. Unfortunately, secular science is often taught in such a way as to become a stumbling block to the development of our faith. Science can instead be a stepping-stone to faith – the evidence for design is everywhere, especially in Biology! This course is taught with a Creation perspective. We will use the Apologia book, "Exploring Creation with Biology". Topics include the five kingdoms of life, the chemistry of life, cell structure and function, genetics, ecology, evolution (as a theory), as well as plant, animal, and human biology. Each week we will have a one-hour lecture/discussion period (generally using PowerPoint slides), followed by a one-hour lab.

Course Fee: \$350/semester, plus enrollment fee, \$35/semester

Instructor: Matthew H. Sanders, matthensan@gmail.com or (626) 244-5462

Matthew has a MS in Biology from the Institute for Creation Research. He is currently an adjunct professor at Azusa Pacific University. Matthew has taught high school chemistry and physics with the EIE home school program in Monrovia, CA. He has also taught at Christbridge Academy in Azusa, CA; AP Biology, Physics, Chemistry, Biology, US History, Government, Economics, and Personal Values/Bible classes. Matthew created and taught a science course for the Upward Bound program at Cal Poly Pomona. **see www.mattsanders.info for more information**

High School Chemistry

This course provides a rigorous foundation in chemistry in preparation for college-level chemistry. Topics covered include significant figures, units, classification, the mole concept, stoichiometry, thermochemistry, thermodynamics, kinetics, acids and bases, redox reactions, solutions, atomic structure, Lewis structures, molecular geometry, the gas laws, and equilibrium.

The lab period will alternate between Chemistry labs and a math tutoring time. Students often have difficulty understanding the math that goes with each chapter, so we will focus on that every other week. We will still do at least one lab with each chapter.

We will spend approximately two weeks on each chapter. Students will be given pages to read each day at home, and questions to answer. Short quizzes will be given for each chapter online. Mr. Sanders is always available by phone or email, and is happy to answer any questions or concerns that arise.

These are available as a set from Berean Builders Pub. for \$65.

Course Fee: \$350/semester (Class length may be adjusted) Enrollment Fee: \$35/semester

ASB/Leadership

This one year class in an interactive class for high school students. They will be learning about the important character traits needed for godly leadership through the lives of prominent leaders of the last few centuries. The students will be planning and implementing monthly high school events for the student body.

There will be several student meetings in the summer.

American Government/Economics Class Description—Thursday

Instructor: Ken Greek Class time: Thursdays, 5—6:30 p.m. at Chino Valley Community Church

Course Fee: \$165, plus \$35 enrollment fee, per semester

This is an upper division, year-long course. During the first semester, in American Government we will focus on the founding principles that formed America. Students will learn why The United States was created and how it stands as beacon of religious, civil, and economic freedom in the world. We will read from original source documents such as the Declaration of Independence, Federalist Papers, and the Constitution to learn how the three branches of American government were designed to control and limit power to protect freedom. These resources will supplement weekly reading from two books: Matthew Spaulding's *We Still Hold These Truths*, and Eric Metaxis' *If You Can Keep It*. Class discussion will explore how our founding principles have informed historical events and are being debated in today's political culture. Students will be challenged to use what they have learned to become active citizens in our democratic republic.

During the second semester, in Economics we will use Henry Hazlitt's book, *Economics in One Lesson*, as a springboard to explore the principles of micro and macroeconomics. This is a practical course that will require weekly reading of news sources for articles that illustrate each week's subject. Students will be exposed to the major economic systems, principles of supply and demand, government taxation and regulation, unions and other special interests, trade policies, minimum wage and rent control, and a variety of other current trends that are gaining interest like a universal basic income.

Please contact webksg@verizon.net or webksg@icloud.com to enroll in this class.

Journalism 9-12th grade

Teacher: Wendy Strong

Contact: 626-260-8782 or email: Swstrong@earthlink.net

Course Fee: \$165, plus \$35 enrollment fee, per semester

Books required: TBA

Prerequisite: W/G I and/or W/G II or equivalent

Students will be introduced to the historical importance of journalism in America and how it influences today's printed news media. They will learn investigative skills, responsible reporting, and journalistic writing techniques as they read, respond to, and write their own news and feature articles. Students will conduct interviews, research, write, and design their own publication.

BIBLE: Girls High School Bible Course (9-12) This course is 2 semesters. **Reflects changes as of Aug 24, 2021** We will be studying the book of Jude for the fall semester. We will be encouraged to contend for the faith in today's culture of unbelief. Girls will discover that God's Word is an anchor in the ever-shifting cultural climate, discover their God-given identity in a world of deception, and how this small obscure book in scripture still speaks to the church today. This course will involve weekly reading, homework, and Bible verse memorization. This is an interactive class focusing also on, prayer, service projects, and building friendships.

Materials: TBA

Course Fee: \$165, plus \$35 enrollment fee, per semester \$5 Supply fee due first week of class

Instructor: Susie Hemsley (909)597-8767 hemsleysusan@gmail.com

Bible: Young Men (9-12) Guys' Bible Class **Reflects changes as of Aug 24, 2021** It's difficult to understand today's culture in America and Western Europe without understanding how "the Church" has influenced society; and it all began with the birth of the Christian Church. This year in Young Men's Bible we will be studying the birth of the Christian Church by going straight to the eyewitnesses of Jesus and how He shaped and transformed cultures across boundaries. The Gospels and Book of Acts will be the only materials needed. We will also be researching online sources throughout the semester, so access to the internet will also be available to each student.

Course Fee: \$165, plus \$35 enrollment fee, per semester

Pre-Algebra (Grades:7-8)

Course description: In this course your students will learn the mathematical concepts and critical thinking skills necessary for success in algebra one and in higher math courses. We will cover a wide variety of topics such as: integers, one step equations, inequalities, graphs/functions, probabilities, and much more. This course will ease the transition from elementary mathematics to Algebra. Students will be assigned daily assignments to ensure the concepts taught in class stay fresh in their minds. Tests will be assigned but administered by their parent.

Required Text: Student text: Pre-Algebra BJU Press 2nd Ed

Teachers Edition (Required) - 2 Volumes, both are required

Instructor: Naomee K. Freedman/ (909) 568-1075/ keimathkid7@gmail.com (please contact me if you have any questions)

Course Fee: \$165/semester plus \$35/semester enrollment fee

Days: Friday

Algebra 1(Grades:8-9)

Course description: This course will help actively engage students in a positive learning experience in which there is increased appreciation and understanding of mathematics in the world. This course introduces students to solving linear equations, factoring, studying exponents and rational expressions, and problem solving. These are all reoccurring topics in higher math courses throughout the rest of high school and in college. This course ensures a solid foundation in Algebra to ensure there is no struggle when the time comes for their next math classes. Students will be assigned daily assignments to ensure the concepts taught in class stay fresh in their minds. Tests will be assigned but administered by their parent.

About Me: My name is Naomee Freeman, I am Christian and a huge advocate for homeschool, I myself was home-schooled from 3rd grade to my senior year in high school. I began attending Citrus College at age 15, I am a math major at Cal State Fullerton working on my pure mathematics bachelors. I have earned my IGETC and CSUGE certification from Citrus College (currently 1 Physics class away from my associates in mathematics). I have been hired by the director of STEM at Citrus College to be a tutor for their PAGE summer program, where I will be teaching 8th and 9th graders math. My mathematical background consists of Pre-Algebra, Algebra 1, Algebra 2, Geometry, Trigonometry, Pre-Calculus, Calculus 1, Calculus 2, Calculus 3, and Linear Algebra. I also have an extensive background in tutoring mathematics. I look forward to meeting you all in the Fall, God bless.

Algebra 2:

Text: Algebra 2 (2nd edition) BJU Press softback ISBN# 1-57924-385-1 (same text as previous years)
Teacher's Edition ISBN# 1-57924-386-X

This is a full year, high school level course. **Students must have completed Algebra 1 or equivalent prior to enrollment.** I strongly recommend that a student take algebra 2 in the academic year immediately following the completion of algebra 1, since the concepts discussed in class will build directly off of algebra 1. If another course is taken between algebra 1 and algebra 2, memory of many of the skills and concepts will be dulled and re-learning them can be a frustrating experience for some students.

Overview of the course: This is a presentation of Algebra as an exercise in stewardship of creation, developing thinking skills and Christlikeness. Mathematical concepts discussed in this course:

- Factoring polynomials, binomials, and trinomials;
- Linear equations and inequalities;
- Linear relations;
- Quadratic equations and functions;
- Graphing;
- Linear programming;
- Radicals and exponential functions;
- Imaginary and other complex numbers;
- Rational expressions and equations;
- Trigonometry;
- Matrix algebra.

Geometry:

Text: Geometry (3rd edition) BJU Press softback ISBN# 1-59166-640-6 2nd edition is acceptable as well, in this case!
Teacher's ISBN# 1-59166-346-7 (2 vol.)

Overview of the course: This is a presentation of Euclidean geometry, as a model of God's creative energy - and as man's attempt to understand and explain God's creation. Mathematical concepts discussed in this course:

- Incidence geometry;
- Subsets of lines;
- Places and space;
- Segments and measurement;
- Angles and measurement;
- Preparing proofs;
- Congruence;
- Triangles and quadrilaterals;
- Area of two and three dimensional forms;
- Circles and the related geometric functions;
- Space and how geometry applies there;
- Volume;
- Transformations and symmetry;
- Two-column proofs, with a heavy emphasis throughout the course.

Course Fee: \$165, plus \$35 enrollment fee, per semester

Instructor: Luke Miller. luke_miller65@yahoo.com (626) 673-9574

Luke recently graduated from UC Berkeley with a bachelors in philosophy and a minor in logic. His focus has always been in mathematical reasoning, and through this formal training he has developed a proficiency in it. Luke believes his experience with Campus Crusade in Berkeley has prepared him to take the gospel into the world, but his training will continue with experience in the class room. Luke is a graduate of Western Christian PSP and is dedicated to upholding the integrity of its academic and character training.

Yearbook:

Materials: a camera (iPhone is okay), 2 flash drives, access to a laptop or computer

Hey students, would you like to play a role in shaping the yearbook for the coming year? We will be offering a class to all who hope to produce an awesome printed book for all to share and enjoy. You have to engage all gears in communication and talent with social media. This is an interactive class. You will have deadlines throughout the year, and will work with faculty and leaders as you make use of your photo skills and creative flair. We will work with all classes to capture just the right product, as well as with extra-curricular activities throughout the year. You will play an *active* role in shaping what we see and enjoy all around Western Christian. If you know what you want to see, or are willing to learn, this is a great class for you to grow. You can have the unique position of looking at the Yearbook in May and saying, "We created that!"

Overview of the Course: In the Yearbook class students will learn 2-dimensional design, page layout using a page layout program, and photography basics as they work to create the school yearbook. Students create the pages, come up with the theme, provide most of the classroom and event photographs, and learn how to interface with adults as they work together throughout the year. There will be a cover design contest where one student will be given the honor of having their art or design grace the cover of the yearbook.

A little bit about the Instructor: I taught the Yearbook class for 5 years for the Biola Youth Academics program, and it was always a fun, interactive, creative and rewarding class for the students. I have a background in Graphic Design and a B.A. in Fine Art Photography. I also currently teach World History & Geography, U.S. History and Digital Photography for WCPSP. I am looking forward to seeing what the students will create this year!
